

Strip chart temperature recorder RYAN CR-1 / 75 days

This strip chart recorder is a modern and effective temperature controller in the logistics of all perishable and temperature variations sensitive products.

It gives full accuracy and reliability, it is ready for easy customer use (you only have to pull the side ticket to start it), and gives a permanent and definitive recording of transport conditions.

It is the best and only one for all final destination not equipped with computer as its results are printed and readable on paper. At arrival, you just have to cut the adhesive security seal on the side to open it and pull out the chart which will show you all recorded temperatures during the transport.

Characteristics:
