Plastic seal EASYTIGHT (X1000) LG294 MM

This adjustable plastic seal secures your bags, small bags, or even you can use it for your transports (tarpaulin trucks, tank ones, containers).

To fit it, you just have to fill its thin body inside the hole in the head of the seal and grip it at its maximum to have an optimized security, and then cut the exceeding rod/body.

As you need to cut it to remove it, you can be assured that nobody has accessed to this protected opening if it is still in place.

Characteristics:

- Seal in plastic (so, recyclable)
- Dimensions: length 294mm – body thickness 6mm
- Sequential numbering at 7 digits, printed
- Packaging: 1000 pcs in 1 box
